

CYLINDER SIZING & IDENTIFICATION

Side View

Top View

****typical rental cylinder markings for TriCo Welding Supplies, Inc.**

- *Cylinder ownership is determined by the markings in the collar and shoulder area of the cylinder.
- *When a permanent marking exists on a RENTAL sized cylinder it is the property of that company and can only be filled or exchanged there.
- *Cylinders without markings or C.O.C. only cylinders are owned by the customer and may be filled or exchanged freely among companies.
- *The removal of permanent cylinder markings immediately renders cylinder as unfillable by compromising ownership and cylinder safety requirements.
